- Available in colors to complement stock chair colors

O P T I O N S

- Patented Glide System
- Powder coated frame

Aptitude™ Jr. Executive Student Desk Specifications

Frame: All-tubular design, 1" diameter, 18-gauge front leg running from side to side is multiple arc welded to a integral 1", 18-gauge U-shaped top support and rear leg. 5/8", 16 gauge tubular U-brace is inserted into punched holes in the rear legs and welded to all four legs. Minimum 4-1/2" of total weld. Frame is powder-coated after all welding is complete.

Chrome Inserts: .86" diameter, nickel/chrome plated 16ga tubing with punched holes to receive adjusting screws. Leg adjustment uses self-tapping locking screws which pass completely through both upper leg and lower insert. Chrome is comprised of metal layers (Nickel & Chromium) electrostatically bonded to metal. Our standard is 4-6 mills (25%-50% more than our competitors) of Nickel—it will not scratch.

Bookbox: Executive Student: 11" wide x 17" height x 15-1/2" deep, 12" lower compartment, 5" upper shelf. 20-gauge formed steel box. Die formed pencil groove. Rolled Edges reinforced with steel rod for safety. Bookbox is attached to the underside of the desktop at nine points.

Top: Solid molded thermoset plastic. 20" x 36" x 5/8" with smooth molded edges and permanent color throughout thickness. Top is attached using self-tapping screws into seven uniformly drilled holes.

Top Colors: Available in standard Sand and Slate. Optional Charcoal, Grey Nebula, Maple, Oak, Cherry, Mahogany, and Walnut

Modesty Panel: 20-gauge formed panel. Rolled edges reinforced with steel rod for safety. Panel is welded to frame in nine points.

Standard Frame Finish: Electrostatically applied powdercoated Minitex Black and Titanium are standard. Textured Powdercoat hides fingerprints and offers superior wear resistance due to the raised surface.

Frame/Bookbox/Modesty Panel Colors: Available in standard Black. Optional Navy, Beige, Burgundy, Teal, and Grey. Custom colors available. Upper frame and modesty panel are an integral unit and are powder-coated in one process.

Glide System: Glide attachment will be a standard internal gripping spring steel umbrella at least 5/8" diameter or larger. The glide will have a ferrule. Glide casing and ferrule shall be constructed of durable case hardened steel; no plastic. The glide will be of full swivel design, silent and firm fitting for positive attachment and retention. All glides must make full level contact with the floor and the maximum swivel angle of the glide shall not be violated. Incorporating our exclusive glide button system available in either nylon, neoprene, steel, or wool felt bottom. Pick the right base for the floor surface. Snap on a new base for surface change or wear replacement.

Warranty:

- Limited Lifetime Frame Warranty
- Ten Year Comprehensive Warranty
